

**DRAWING AMENDMENTS**

The drawing, which is shown on page 7 in the original specification, is presented on a separate page. The specification is amended to include a Brief Description of the Drawings section for the drawing. A drawing amendment approval request form is enclosed herewith, as pursuant to MPEP 608.02(v).

**REMARKS-General**

1. Applicant acknowledges the allowability of claims 2-5 and 7-8. The newly drafted independent claims 10 and 11 incorporate all structural limitations of the original claim 1 and include further limitations previously brought forth in the original allowable claims 2 and 3, including any intervening claims, respectively. The newly drafted dependent claims 12-15 are rewritten from the original allowable claims 4, 5, 7 and 8 respectively. No new matter has been included. All new claims 10-15 are submitted to be of sufficient clarity and detail to enable a person of average skill in the art to make and use the instant invention, so as to be pursuant to 35 USC 112.

2. A formal drawing, Fig. 1, is submitted herewith to present on a separate page shown on page 7 in the original specification in file upon the approval of the corrected drawing of Figure 1.

**Response to Rejection of Claims 8 and 9 under 35USC112**

2. The applicant submits that the newly drafted claim 15, which is rewritten from the original claim 8, particularly points out and distinctly claims the subject matter of the instant invention, as pursuant to 35USC112. The rejected claim 9 is deleted in this application.

**Regarding to Rejection of Claims 1 and 9 under 35USC102**

3. The rejected claim 1 and 9 are deleted in this application.

**Response to Rejection of Claims 6 under 35USC103**

4. The rejected claim 6 is deleted in this application.

**The Cited but Non-Applied References**

5. The cited but not relied upon references have been studied and are greatly appreciated, but are deemed to be less relevant than the relied upon references.

6. In view of the above, it is submitted that the claims are in condition for allowance. Reconsideration and withdrawal of the objection are requested. Allowance of claims 10-15 at an early date is solicited.

7. Should the Examiner believe that anything further is needed in order to place the application in condition for allowance, he is requested to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Raymond Y. Chan
